

Green-tree Roof Garden Substrate - Extensive

Green-tree Extensive Roof Garden Substrate is ideal for incorporating into expansive green roof projects that require very little maintenance. A proven growing media, that is lightweight in texture and manufactured from the award winning Green-tree topsoil. Green-tree Extensive Roof Garden Substrate has a balanced nutrient content, ensuring quick plant establishment in harsh rooftop environments.

Benefits:

- Lightweight
- Controlled fertility levels
- Good aeration and water holding properties
- Simple to work with
- Consistency throughout the green roof installation
- Typical bulk density at saturation point 0.96 tonnes/m³

Build up of a Green Roof (Extensive)

Applications:

- Large roof areas
- Areas with limited access
- Sloped roofs (0-30°)
- Areas requiring low maintenance
